

## Help Wanted!

COTI Members and Friends,

Your COTI Board is already back at work dealing with a host of issues of great importance to Sanibel. This includes the following:

- Traffic - roundabouts, traffic status signage, digital information apps, causeway and beach parking pricing, travel time, special events effects, best practices in similar communities, communications
- Environment - EAA water storage, Caloosahatchee basin nutrient remediation, Sanibel river/slough impairment, Captiva waste water issues, Lee County water quality issues, Blind Pass dredging, Beach Management Plan update
- Land Use Planning - redevelopment, "low speed vehicles", alligators, Dark Skies implementation, formula retail business permitting
- Civic & Cultural Core - understanding the proposal, evaluation of possible conditions of approval, dealing with referendum, educating our members
- City Governance - council member compensation or stipend, budget issues

But we need some specialized volunteer help in the areas below. If you think you can help, write to us at [coti@coti.org](mailto:coti@coti.org). Hours are flexible; pay is awful.

TRANSPORTATION ENGINEER OR PLANNER - Experienced in traffic management OR be able to research and evaluate traffic "best practices" used in communities similar to Sanibel.

HYDROLOGIST OR BIOLOGIST - Able to understand and evaluate alternatives for

dealing with south Florida water flow, storage and quality issues.

LAND USE OR CITY PLANNER - Familiar with the Sanibel Plan and Land Development Code; legal experience a plus; will involve attendance at Planning Commission meetings.

TECHNOLOGIST - Familiar with website, Constant Contact and/or database administration; willing to assist with creation of content.

MEMBERSHIP ADMINISTRATOR/RECRUITER - Experienced at dealing with membership issues of a non-profit organization.

Your continued support of COTI is greatly appreciated by our Board of Directors.

**Mike Miller**  
**COTI President**
